

HARSH PATEL

Khambhat, Gujarat | +91 9265203626 | hp251008@gmail.com | [LinkedIn](#)

OBJECTIVE

Motivated IT student with foundational skills in C programming, web development, and technical troubleshooting. Seeking an opportunity to apply programming, problem-solving, and technical skills in real-world projects while contributing to organizational goals and continuously developing expertise in information technology.

EDUCATION

Madhuben and Bhanubhai Patel Institute of Technology

Expected 2027

B.Tech in Information Technology — CGPA: 8.24 (up to Semester 6)

Higher Secondary Certificate (HSC): 65.84% | Secondary School Certificate (SSC): 84.5%

TECHNICAL SKILLS

Languages: C, C++, Java, Python, HTML, CSS

Libraries: NumPy, Pandas

Databases: MySQL, MongoDB, SQL

Tools: VS Code, Jupyter Notebook

PROJECTS

Automatic Image Captioning

Python, PyTorch, Hugging Face Transformers, OpenCV, Pillow, Matplotlib, Scikit-image

- Built an AI-powered image captioning system that generates natural-language descriptions of images automatically using a pretrained BLIP vision-language Transformer model.
- Implemented an image-processing pipeline (capture, preprocessing, feature extraction) using OpenCV and Pillow to prepare visual input for the captioning model.
- Applied Hugging Face Transformers to integrate a pretrained deep learning model, combining computer vision and NLP techniques in a single end-to-end system.

Smart Street Light using IoT

NodeMCU (ESP8266), Embedded C/C++ (Arduino IDE), LDR Sensor, PIR Motion Sensor

- Designed and built an IoT-based smart street lighting system using NodeMCU (ESP8266) with LDR and PIR sensors to automate lighting based on ambient light and motion detection.
- Programmed sensor logic to switch street lights on/off automatically, reducing unnecessary power consumption compared to traditional always-on street lighting.
- Demonstrated practical application of embedded systems and IoT for energy-efficient smart city infrastructure.

INTERNSHIP EXPERIENCE

Web Development Intern — NexDiv Solutions, Surat

1 Month

- Developed a personal portfolio website as part of a hands-on web development project, applying core HTML/CSS concepts.
- Gained practical exposure to front-end web development workflow in a professional setting.

CERTIFICATIONS

- NPTEL Certification in Cloud Computing
